FRONT SLICER WHEELS

GENERAL

▲ WARNING

Install only wheels and installation kits approved for your model motorcycle. Contact a Harley-Davidson dealer to verify fitment. Mismatching wheels and installation kits or installing wheels not approved for your model can cause loss of control, which could result in death or serious injury. (00610c)

Kit Numbers

43300388

Models

For model fitment information, see the P&A Retail Catalog or the Parts and Accessories section of www.harley-davidson.com (English only).

Kit Contents

See Figure 1 and the Service Parts Tables.

Additional Parts Required

Accessory hub caps are not compatible with this wheel.

This kit includes the custom wheel only.

Proper installation of this kit requires the separate purchase of the following parts which are available at a Harley-Davidson dealer:

- Wheel Installation Kit (See Table 2 and Table 3 to determine required installation kit.)
- 14 Brake disc shoulder screws (3762M) and 14 washers (6966M) or 3 chrome screw kits (91800029). Chrome screw kit contains 5 screws and 5 washers
- Wheel Bearing Remover and Installer (94134-09)
- Two Chisel style floating brake rotor kits (41500040 (polished) or 41500042 (unpolished))
- Optional Harley-Davidson® Original Equipment angled valve stem may be installed. See a Harley-Davidson dealer for part numbers and proper torque values.

▲ WARNING

The rider's safety depends upon the correct installation of this kit. Use the appropriate service manual procedures. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (00333a)

NOTE

This instruction sheet references service manual information. A service manual for your model motorcycle is required for this installation and is available from a Harley-Davidson Dealer.

Recommended Products

The following Harley-Davidson Genuine Motor Accessories are recommended for proper maintenance and cleaning:

- Chrome Clean & Shine (93600031 (US) / 93600082 (International))
- Glaze Poly Sealant (93600026 (US) / 93600079 (International))
- Harley® Wheel and Spoke Brush (43078-99)
- Wheel & Tire Cleaner (93600024 (US) / 93600076 (International))

INSTALLATION

NOTE

Install short valve stem (43157-83A) included in the installation kit. Discard all other valve stems.

1. Remove existing front wheel assembly. Save axle, axle nut, brake disc and wheel spacers for kit installation. See the service manual.

NOTE

Do not install the bearing shim included in the installation kit.

2. See Figure 1. Install valve stem assembly (L) on wheel. See the service manual.

NOTICE

Do not re-use brake disc/rotor screws. Re-using these screws can result in torque loss and damage to brake components. (00319c)

3. Assemble wheel installation kit components and brake disc(s) to wheel, using the appropriate service parts table. See the service manual.

NOTE

If the wheel has a yellow dot sticker on the rim, orient the tire so the white dot is opposite of the sticker. If the wheel has a green dot sticker on the rim, orient the tire so the white dot is aligned with the sticker. If no rim dot sticker is present, see the service manual.

4. Install primary bearing with a Wheel Bearing Remover and Installer. See the service manual. The left side of the wheel has DOT cast in the wheel to indicate the primary side of the wheel.
5. Install wheel spacers (previously removed).
6. Install front wheel (1) and stock axle. See the service manual.

-J06066

Many Harley-Davidson® Parts & Accessories are made of plastics and metals which can be recycled. Please dispose of materials responsibly.

1 / 3

MAINTENANCE AND CLEANING

Chrome parts must be maintained regularly so that they keep their original shine and luster.

1. Clean heavily-soiled wheel surfaces using Wheel & Tire Cleaner, applied with Harley Wheel and Spoke Brush.

2. Thoroughly clean chrome with a good quality chrome cleaner, such as Harley Chrome Clean & Shine.
3. After cleaning and polishing, seal the finish with a good quality sealer, such as Glaze Poly Sealant.

SERVICE PARTS
