Table 1. Kit Contents

Item	Description	Part Number
1	Screw	3824
2	Nut	8006
3	Trim ring	Not Sold Separately

INSTALLATION

NOTE

If the original equipment trim ring screw is not loosened, the accessory trim ring will not fit properly.

1. Loosen original equipment trim ring screw.

NOTE

See Figure 1. If necessary, remove screw and nut to allow trim ring to slip over original equipment trim ring. Position mounting screw of accessory trim ring at bottom of headlamp.

2. Slip new trim ring over original equipment trim ring. The partial lip on the back of the accessory ring should slip between headlamp housing and original equipment trim ring.
