## BOOM! AUDIO FRONT FAIRING SPEAKER GRILLE KIT

### GENERAL

#### Kit Number

76000735

#### Models

For model fitment information, see the P&A retail catalog or the Parts and Accessories section of [www.harley-davidson.com](http://www.harley-davidson.com) (English only).

#### Installation Requirements

##### ▲ WARNING

The rider's safety depends upon the correct installation of this kit. If the procedure is not within your capabilities or you do not have the correct tools, have a Harley-Davidson dealer perform the installation. Improper installation of this kit could result in death or serious injury. (00308a)

- A small right angle tool is required for grille removal.

#### Kit Contents

See Figure 3 and Table 1.

#### REMOVAL

##### NOTE

- To prevent paint damage, do not pry between speaker grille and inner fairing.
  - Use care to not damage speaker when inserting right angle tool.
1. See Figure 1. Remove speaker grille. **Method A:**
    - a. Carefully insert a right angle tool (3) through a hole in the grille next to one clip (1, 4).
    - b. Pull tool to release clip.
    - c. Repeat with remaining clip.
    - d. Remove speaker grille.
  2. **Method B:**
    - a. Remove top air duct.
    - b. From above, reach down into speaker area. Push on tab to disengage upper clip (1).
    - c. Carefully pull near lower clip (4) to disengage. Remove grille.

#### INSTALLATION

##### NOTE

See Figure 2. The **new** speaker grilles are side-specific.

1. Install the grille.
  - a. Verify that the rubber gasket is in place on perimeter of grille.
  - b. Engage tab (2) into grille opening.
  - c. Engage clips (1) in slots in inner fairing.
  - d. Push on grille in clip areas until an audible click is heard.
2. Repeat steps for the opposite side.
