LIMITED WARRANTY

Kuryakyn warrants that any Kuryakyn products sold hereunder, shall be free of defects in materials and workmanship for a period of one (1) year from the date of purchase by the consumer excepting the following provisions:

- Kuryakyn shall have no obligation in the event the customer is unable to provide a receipt showing the date the customer purchased the product(s).
- The product must be properly installed, maintained and operated under normal conditions.
- Kuryakyn makes no warranty, expressed or implied, with respect to any gold plated products.
- Kuryakyn shall not be liable for any consequential and incidental damages, including labor and paint, resulting from failure of a Kuryakyn product, failure to deliver, delay in delivery, delivery in nonconforming condition, or for any breach of contract or duty between Kuryakyn and a customer.
- Kuryakyn products are often intended for use in specific applications. Kuryakyn makes no warranty if a Kuryakyn product is used in applications other than intended.
- Kuryakyn electrical products are warranted for one (1) year from the date of purchase by the consumer. Components of Kuryakyn products containing L.E.D.s will be warranted for defects in materials and workmanship for 3 years from the date of purchase.
- Kuryakyn makes no warranty of any kind in regard to other manufacturer's products distributed by Kuryakyn. Kuryakyn will pass on all warranties made by the manufacturer and where possible, will expedite the claim on behalf of the customer, but ultimately, responsibility for disposition of the warranty claim lies with the manufacturer.

**STEP 3** Referring to PIC.1, determine the upper and lower covers for the right and left sides.

**NOTE** When installing the covers on the right side it may be helpful to loosen the exhaust.

**STEP 4** Starting with the right side, test fit the upper and lower cover. They are designed to be placed so that the end of the cover is just above the weld as shown in PIC.2.

**NOTE** The covers should snap into place when they are installed, if they are loose, you may lightly squeeze the cover to achieve a tighter fit.

**STEP 5** Clean the swingarms with the included alcohol-cleaning pad in the location where the adhesive inside the covers will sit, and allow the area to fully dry.

**ATTENTION!** Ensure the area of installation is free of grease, oil, dirt or other debris to ensure proper adhesion. Kuryakyn WILL NOT warranty any parts lost due to improper installation.

**ATTENTION!** The adhesive will not bond correctly if applied at temperatures less than 50°F. Do not attempt this installation in temperatures less than 50°F.

**STEP 6** Using the back of your fingernail, rub the backing of the adhesive pad on the upper cover to activate the catalyst, and remove the backing.

**STEP 7** Install the upper cover and press and hold in place for one (1) minute, full bonding strength will occur in 24 hours.

**STEP 8** Using the back of your fingernail, rub the backing of the adhesive pad on the lower cover to activate the catalyst, and remove the backing.

**STEP 9** Install the lower cover and press and hold in place for one (1) minute, full bonding strength will occur in 24 hours

**STEP 10** Repeat STEP 4 through STEP 9 for the left side.

**CAUTION!** Ensure that the installation of this product does not interfere with the proper operation of the motorcycle before riding.

*Ride On!*
