TOOLS SUGGESTED

Set of Hex Wrenches, Tin Snips

STRICTLY OBSERVE THE FOLLOWING GUIDELINES IN ORDER TO USE THE PRODUCT PROPERLY AND AVOID POTENTIALLY DANGEROUS ACCIDENTS.

STEP 1

Read and understand all steps in the instructions before starting the installation. Park the motorcycle on a hard, level surface and turn off the ignition.

NOTE: You may need to refer to the Tombstone Taillight installation instructions (P/N 4991 or P/N 4992) for information and tools needed. If the Tombstone Taillight instructions are not readily available, replacement copies are available by part number on our web site, www.kuryakyn.com.

STEP 2

If the Tombstone Taillight has already been installed, it must be removed from the fender in order to install this Curved License Plate Frame. It should not be necessary to disconnect any wires to complete the procedure.

STEP 3

If the license plate bracket supplied with the Tombstone Taillight had been installed, remove it using a hex wrench. Save the 1/4"-20 fasteners as they will be reused.

- STEP 4** Create a nice, mild arch in the license plate so it matches the contour of the curved frame. Place one hand on each end of the plate, lay the plate across your thigh, and press down equally on both ends. Be careful not to crease or fold the plate. Position the plate in the frame and repeat the process until the curve of the plate matches the contour of the frame. It may be necessary to trim the edges of the license plate with a tin snips in order to make it fit the frame properly.
- STEP 5** Assemble the license plate, Curved License Plate Frame, and the License Plate Back Plate. Fasten at all corners with the supplied 1/4"-20 X 9/16" Flat Socket Cap Screws using a hex wrench and tighten securely.
- STEP 6** Install the Curved License Plate Frame assembly to the Tombstone Taillight using the two 1/4"-20 fasteners (supplied with your Tombstone Taillight) that held the original license plate bracket in place.
- STEP 7** Reattach the Tombstone Taillight to the fender. Refer to its original installation instructions if necessary.

ATTENTION! It is the installer's responsibility to ensure that all of the fasteners (including pre-assembled) are tightened before operation of the motorcycle. Küryakyn will not issue a warranty on components lost due to improper installation. Periodic maintenance may be required.
